TWENTY-NINTH YEAR No. 226. SALEM, OHIO TUESDAY, SEPTEMBER 25, 1917. TWO CENTS

RETAIL CLERKS PETITION LOCAL MERCHANTS FOR EARLIER CLOSING HOUR

Five O'Clock on Weekdays, 9 O'Clock Saturday Favored; Demand Presented Tuesday, Final Action Planned Friday Evening, When Clerks' Union May Be Formed; Hours Too Long, Shops Close Early, Contentions.

Retail clerks of the city have inaugurated a movement favoring an earlier closing hour for local business houses.

At a meeting held in the Chamber of Commerce rooms Monday night and attended by a large number of the city's corps of clerks, a petition was drawn up for presentation to the merchants Tuesday, advocating the closing of all stores at 5 o'clock during the week and 9 o'clock Saturday evening.

The clerks will hold another meeting next Friday evening, after the business men have been given an opportunity to express themselves on the subject with the presentation of the clerks' petition. Final action will be taken by the retail employes at their second meeting and it is possible that a clerk's union may be organized, as the old union has long ago ceased to exist.

The clerks, it is claimed, feel that they are putting in more hours each week than men in any other occupation. As Wednesday this week will terminate the weekly half holiday granted to employes of stores during the summon months, the clerks feel that they have some time coming to them to make up the loss. It is also the opinion of the clerks that since the shopmen are now on a nine-hour basis, some on an eight-hour day, it is not necessary to keep the stores open until 6 to permit their making purchases on the way home from work.

The present movement on the part of the clerks is an outgrowth of agitation for an earlier closing hour which has been in progress for the past several years.

SAFER CONDEMNS TRIPS BY CHILDREN OUTSIDE THE CITY

That thoughtless parents who permit their children to leave the city and pay visits elsewhere are jeopardizing other communities and doing much to render ineffective the city-wide quarantine here was the declaration Tuesday of Safety Director George Hinsdale, who said he could not too strongly condemn such practices at a time like this, when all children have been ordered kept off the streets and at home in order to minimize the danger of spreading the infantile paralysis contagion existent here.

He cited one instance in particular, where a local child was permitted to go to Franklin Square and to visit the school there. Later, when the state of affairs here became known, residents of the village were justly indignant that they should have been thus exposed to the contagion. Many others, it is understood, are taking similar liberties, which the authorities may have to summarily stop unless parents voluntarily exercise sensible discretion in the matter.

No new cases of the disease were reported Tuesday, and health authorities are hopeful that the end is in sight. Both of the Steele children are reported to have manifested unmistakable evidence of being afflicted with the dread disease, but both are expected to recover. The child quarantine is apparently proving effective, as the sight of a youngster on the street now is a very rare occurrenc.

ANARCHY IN RUSSIA; ARMY STILL LOYAL

(By International News.)

Stockholm, Sept. 25.—Anarchy was the description given the situation in Russia by travelers arriving here today from the Russian frontier. The radical element is said to be in control of Petrograd and disorders are occurring throughout the country.

A peculiar feature of the whole affair, however, is the loyalty of the army opposing the German allies. It is estimated that the Russians on the eastern and Rumanian fronts are engaging the attention of 150 divisions of German, Austro-Hungarian, Bulgarian and Turkish troops, or about 2,700,000.

SPECIAL NOTICE

THE BOARD OF HEALTH HAS DECREED THAT ALL CATS AND DOGS AT LARGE SHALL BE KILLED. IF YOU THINK ANYTHING OF YOUR PETS, KEEP THEM AT HOME, WHERE THEY BELONG.

BOARD OF HEALTH

TWO MEN BLOWN TO PIECES, TANKER, WHARF DESTROYED

(By International News.)

Richmond, Calif., Sept. 25.—Two men were blown to pieces, the Standard Oil tanker J. A. Moffett was badly damaged and a portion of the main wharf of the oil company here was blown up at 4 o'clock this morning by an explosion.

The victoms were Ernest Rutter, quartermaster, of San Francisco, and H. R. Juillerat, of Richmond. It was definitely established several hours after the blast that they were blown to pieces. Two others were injured.

DEPUTIES' VOTE FAVORS BREAK WITH GERMANY

Buenos Aires, Sept. 25.—A diplomatic break with Germany now rests with the president of the republic. After a 24-hour session the chamber of deputies voted in support of the senate resolution calling for a break with Germany, but before the action of the chamber becomes effective it must receive the approval of the president.

Kansas sends more girls and boys to universities, colleges and schools in proportion to population than any other state in the union.

HJALMAR BRANTING MAY BE NEW PREMIER OF SWEDEN

HJALMAR BRANTING

Hjalmar Branting, Socialist leader, has been mentioned as Sweden's premier. Branting is the head of the Social Democratic party, and also editor of Social Democraten, the leading organ of the Swedish Labor party. It is reported that Branting is anti-German.

Robbed, Then Pushed From High Trestle

A foreigner, whose name could not be learned, said to be a resident of Alliance who had been working in Sharon, Pa., was brought to this city on the first Y. & O. R. car after he was found clinging to the high bridge just this side of Leetonia, unable to reach the top. The man's clothes were wringing wet and he was so numb that he was scarcely able to walk when taken from the car here.

After he was provided with warm drink and overcame a little of his numbness the man stated that he had been attacked by two negroes at Leetonia who robbed him of the last quarter he had and then pushed him off the high trestle just this side of the village into the creek below.

No hurts were visible on the stranger, but he complained of pains in his side and he is believedmfwy in his side and it is believed that he suffered a cracked rib in his fall from the bridge.

He was taken to the home of friends here and cared for.

ENGINE, FREIGHT COLLIDE; 1 DEAD

Alliance, Sept. 25.—When a yard engine and a Pennsylvania freight train crashed headon today in the west yards here, John May, 35, fireman, was instantly killed, Conductor Miller lost his right arm, and several other trainmen were injured. Traffic was held up for several hours. The engine was badly damaged. Officials are probing the cause.

APPEALS TO PRESIDENT.

Cincinnati, Sept. 25. — Robert Scripps, son of E. W. Scripps, newspaper publisher, who was refused a discharge by both the Butler county and district draft boards, has filed an appeal to President Wilson to release him on the ground that he is engaged in newspaper work, necessary to proper conduct of the war.

SHOOT AND POISON OFFICERS, FOUL PLOT

(By International News.)

El Paso, Texas, Sept. 25.—Following the finding of poison in one or two water holes in cattle ranges, cattle men are having them closely guarded today. It is believed the poison found was the result of a German plot to kill thousands of cattle which otherwise might be used for food by America and her allies.

(By International News.)

Washington, Sept. 25.—Oaths to shoot their officers in the back and to administer poison to them in case they were drafted into the National army were taken by some members joining the I. W. W. and the W. C. U. —the Working Class Union—according to official information reaching here today.

In connection with the activities of these organizations, an effort was made to convince negroes of the south that six and a half million men, well organized, were prepared to rise against the government of the United States and overpower it.

Aid from outside the United States was hinted at. The old plea to the negroes to rise against the whites was used. That part of the propaganda seems to have been a flat failure.

If documentary evidence sent for reaches here within the next two or three weeks, it will be presented to congress. It is not probable that any action will be asked, but it will be read into the congressional record.

It will be shown, it was learned today, that rites calculated to appeal to the uneducated were used in initiating members into the I. W. W. and affiliated organizations. The oath to shoot their officers in the back and to administer to them the poison cup was given while the candidate, instead of placing hands on the Bible, held a loaded revolver aloft.

Teutons Only Want a Little, But They'll Get a Little Less

Amsterdam, Sept. 25.—The pan-German league has issued a pamphlet telling the German people that the imperial government will exact an indemnity of $87,500,000 from the allies "when the war is won." A copy of the pamphlet which has just been received here says that Germany will annex the following territories: The greater part of Belgium a district in northern France, the cities of Calais and Bologne, the Suez canal, the Belgian Congo, the Canary Islands, Tunis, Morocco, the Azores, Liberia, Gibraltar and part of the French and British colonies in Africa.

COUNTY ASKS STATEMENT OF FINANCIAL STATUS OF COSTLY TUBERCULOSIS SANITARIUM

Lisbon, Sept. 25.—The five-county tuberculosis sanitarium at Springfield Lake, near Akron, which was built by Columbiana, Stark, Mahoning, Summit and Portage counties, has been a source of great expense to Columbiana county as well as the others.

At a meeting of the new board of commissioners Monday a resolution was passed authorizing their clerk, C. E. Hamilton, to write the management of the Springfield Lake sanitorium for an itemized statement of the money expended for maintaining the institution, a list of the employes, and the salary of each.

The commissioners have been notified by the auditor from time to time of the heavy expense to this county of paying its share in maintaining this institution, and he recently submitted to them figures showing that it costs this county about $10,000 per year for an average of 10 or less patients, and they still have outstanding bonds of $20,000 not due until 1926. It is said that the reports sent out from the hospital are so general that the commissioners can have no idea what the money is used for.

There seems to be a great deal of dissatisfaction in almost all counties interested in this institution on account of the expense of maintaining it, and it seems the concensus of opinion that each county could erect a tuberculosis hospital of its own and conduct it at much less cost.

Columbiana county, it is said, could build one on one of the hills on the infirmary farm and place it under the supervision of the superintendent of the infirmary. This, it is claimed, could be done at much less expense and the county could employ its own attendants to care for the patients.

Mother, Daughters In School Together

Springfield, Sept. 25.—Mrs. Eunice Clark and her daughters, Evelyn and Jessie, went to school together this morning. Mrs. Clark is in the eighth grade, Jessie in the third and Evelyn in the kindergarten.

Mrs. Clark quit school when she was very young but now that Superintendent Spaulding has inaugurated a new system of accepting adults, she intends to go through high school and maybe college.

ONE KILLED, MANY HURT IN MUNITION PLANT EXPLOSION

(By International News.)

Lowell, Mass., Sept. 25.—One man was killed and more than a dozen others were injured when a terrific explosion wrecked the munitions plant of the Newton Manufacturing company at Warrenville, three miles from here, today.

There were others at work in the building who had narrow escapes. The force of the explosion blew out the windows in houses more than a mile away.

The Newton Manufacturing company is engaged in making shrapnel and shells for the United States government. The company's plant was filled with nitro-glycerin and shells.

The explosion that wrecked the plant was preceded by two minor explosions. Officials of the company refused to discuss the cause of the explosion. Persons in the factory at the time say they did not know what had exploded.

FAMINE THREATENING BUENOS AIRES WHILE RAIL STRIKE GROWS

(By International News.)

Buenos Aires, Sept. 25. —Famine is threatened in this city by the general railroad strike. It was estimated today that the city will be without its normal supply of meat, milk and vegetables by Thursday, and that if the strike continues the shortage will be acute by Saturday. Some supplies can be brought in by boat, but it is said the railway leaders will try to extend the strike to the maritime workers.

Scattered cases of disorder are reported, but the armed troops and police are generally keeping order. There are indications that German agents are behind the strike agitators and an investigation to this end may be made by the government. For the time being, congress is giving its whole attention to the labor situation, and the German-Argentina troubles are held in abeyance.

The Argentina navy is being mobilized, evidently in fear of an extension of the strike to shipping.

NOT SERIOUSLY HURT

Russell Barber, 10-year-old son of Mr. and Mrs. Leonard Barber, of Brooklyn avenue, who was the victim of an accident Sunday morning, is not so seriously injured as was at first thought. The head and face of the boy were badly cut and bruised and his shoulder injured when he darted in front of an automobile driven by Mr. Webb, of New Brighton, Pa.

DRAFT QUOTA CUT FROM 63 TO 47

Local draft board officials are hourly expecting notice that the original 40 per cent of district No. 2's quota, subject to call on October 3, will be cut down to 30 per cent, following a telegram to this effect forwarded to Governor Cox by Provost Marshal General Crowder.

Forty-five per cent of the district's quota is already in camp, and the October 3 movement will leave a final 25 per cent to go instead of a final 15 per cent, as originally ordered. This will call 47 local youths October 3 instead of 63.

Members of the local board will convene Wednesday afternoon at 1 o'clock to pass on exemption claims filed by men examined on the last call, Clerk Davis said Tuesday.

"Until we have looked into these last claims we cannot tell for certain whether it will be necessary to issue another call to secure our authorized quota," he added.

In the days of Solomon there were houses ten stories high.

INTENSIVE TRAINING IS ON IN DEAD EARNEST

(By International News.)

Camp Sherman, Sept. 25.—Twenty thousand Ohio and Pennsylvania drafted men swung into intensive training today on a regular schedule which called for occupation of most of their time from dawn until dusk. Many companies of drafted men drilled for the first time today at full war strength—250 men. Rugged, earnest, determined, they swung along on their hikes, went through drills and performed calisthenics with a rythm considered remarkable with their brief training.

Here's the schedule of duties: 7:30 to 8:30 march; 8:45 to 9:45, school of soldier; 11 to 11:30, setting-up exercises; 11:30 to 1 p. m., dinner and rest; 1 to 1:30, instruction in articles of war; 1:30 to 2, military discipline and courtesy; 2:15 to 2:35, school of squad; 3 to 3:30, setting-up exercises, 3:45 to 4:15, personal hygiene; 4:15 to 4:45, instructions on how to care for uniforms and equipment; 4:45 to 5, games and sports.

This program is varied slightly day by day, some things being dropped to make room for orders for sentinels, issuance of clothing and equipment, lectures, obligations and rights of soldiers, and inspection.

Practically all of the conscripted men were supplied with hats, breeches, shoes and shirts today. It also was announced that the Enfield rifle, being used by the French, will be the rifle supplied men here.

LATEST PHOTOGRAPH OF NEW U. S. CHIEF OF STAFF

GEN. TASKER H. BLISS

Latest photograph of General Tasker H. Bliss, assistant chief of staff of the United States army, who has been named chief of staff to succeed Major-General Scott, who retires for age. It had been expected that Major-General Joseph E. Kuhn would be named for the post. General Kuhn was chief of the army war college, but was recently placed in charge of an army cantonment. General Bliss is to be retired for age in December, and at that time, it is believed, will be succeeded by General Kuhn.

"SMOKES" AND "CHEWS" WILL ADVANCE SOON

And now it is the increased cost of "smokes" and "chews" which is to be added to life's woes.

Local tobacco dealers predict six-cent scraps and 11-cent plugs will shortly make their appearance. Cigars which at present cost a nickel will sell for six cents, while the present 10-cent "smoke" will retail at 11 cents.

Cigarettes will be advanced from 10 to 13 cents a box, or two for a quarter.

"You may expect this increase in the cost of tobacco any time after the first of October," local dealers say. The increased cost of tobacco to the retailer is given as the cause of the latest boost in high prices.

$100 REWARD OFFERED FOR RECKLESS DRIVER

Lisbon, Sept. 25.—Clark Firestone has offered a reward of $100 to anyone furnishing information that will lead to the arrest and conviction of the unknown automobile driver who ran over his four-yearold son, Richard, in Lisbon at 11 o'clock Tuesday, September 4, and then apparently escaped eastward or southward.

Goes to Texas to Wed Soldier Boy

Lisbon, Sept. 25.—Miss Zora Crawford, of Rogers, went to Fort Bliss, Texas, last week where she was united in marriage with Fred Franks, of Lisbon, a member of the U. S. ambulance corps. Mr. Franks expects to be called out to France soon, and his bride will return to the home of her parents, Mr. and Mrs. E. E. Crawford, at Rogers.

Shoes, furniture and rice are in demand at Tunis, Africa.

GIGANTIC AIR RAID SWEEPS OVER ENGLAND

Both Planes and Zeppelins Attack London, Bomb Coast Points.

INCENDIARY MISSILES

Start Many Fires; 15 Are Killed, 70 Injured; Raiders Attacked.

(By International News.)

London, Sept. 25.—Fifteen persons were killed and 70 wounded in London during the German aero raid it was officially announced today. The damage was comparatively slight. Only one, or possibly two, of the German aeroplanes succeeded in reaching this city so violent was the fire from the cannon and so vigorous was the attack of the British airmen.

(By International News.)

London, Sept. 25.—In view of the large area of territory attacked and the number of aeroplanes and Zeppelins taking part, last night's German air raid against England was one of the most pretentious since such attacts were begun, according to advices received here today.

The attackers were subjected to a hot fire from the high angle cannon as soon as their presence became known, while huge numbers of British aeroplanes went aloft, attacking the invaders.

When the German planes retired they were followed out to sea.

An early statement issued by the government said that about half a dozen persons had been killed and more than a score wounded, but at that time the casualty list had not been completely checked up.

The task of attacking the city was given to the aeroplanes on account of their superior maneuvering ability and their size. The Zeppelins were sent northward along the coast, evidently with a view to attacking industrial and marine establishments.

Fires were caused here by incendiary bombs, and, in addition to these missiles, the attackers used shrapnel projectiles and aerial torpedoes of gigantic power which exploded with a terrific roar.

The declaration was made that the raiders over London may have been trying to "get" some of the American soldiers reported in the city. But this, of course, was pure conjecture.

The hostile aircraft were over British soil about three hours in all, but so far as could be learned there was no panic anywhere.

In this city prompt attention was given to the wounded by the Red Cross.

BRITISH PLANES RAID ENGLAND

London, Sept. 25.—An ironical feature of the latest German air attack was that the raiders used Gotha aeroplanes, a type formerly owned exclusively by England. The Germans some time ago stole the idea from a British Gotha machine that was shot down behind the German front and have since used them for raiding purposes because of their great sped and reliability.

SCHOOL JANITORS ARE NOW SPECIAL POLICE

To enforce the ruling of the board of health that all children be kept off the streets during the present infantile paralysis scare, Mayor Johnson announced Tuesday the appointment of five janitors at the city schools as special policemen. The janitors affected are. Frank Probert and R. W. Shinn, High school; F. F. Williams, Fourth street; J. R. Chisholm, Columbia street, and Herbert Hutchison, McKinley avenue.

Mayor Johnson stated that it was his plan to make these appointments permanent, as there is frequent need for an officer around the various school buildings and he proposes to give the janitors power to act in that capacity. It will be a great aid to the present police force, the mayor said.

A new pocket to protect valuables being carried about is designed to be attached to the lining of shoes.

A HARVEST FESTIVAL?

For many years past, with a single exception, each autumn has seen the celebration in Salem of a Homecoming Harvest Festival a civic enterprise which has met with too much approbation, too general participation, to be lightly put aside.

Some weeks ago, when the time to plan the 1917 celebration had come, members of the Retail Merchants board, under whose auspices the festival has of late years been staged, were individually tendered a written invitation to meet for discussion of matters pertaining to the homecoming.

And although nearly 100 notices of the meeting were sent out, it is learned that less than 10 responded. The decision of those present was that, in view of the many financial obligations of the war and the partial lack, at least, of the festival spirit among those who have given their sons to the cause, it would be better not to hold a celebration this year.

For some weeks it seemed that the matter had been adjusted to the satisfaction of all, but of late—too late, in fact, as experience has proven, to successfully plan and carry out such a homecoming—a movement has been started, not without considerable support, to still hold the usual festival, at the usual time, now less than two weeks hence, or perhaps a week later.

Now the question which inevitably arises in the mind of the impartial observer is, why did not a far larger representation of the merchants of the city participate in the meeting at which the decision to abandon the celebration was reached, and, further, if those who did not attend the meeting did not approve of the action taken, why did they not at once or within a reasonable length of time make known their displeasure and have another meeting called for reconsideration of the matter, which without doubt would have been decided in accord with the views of a a majority of those chiefly concerned?

While the lack of time and the fact that wide circulation has already been given to the decision not to stage a homecoming this fall are perhaps the chief objections to a reversal of policy at this time, it is equally true and pertinent that the city is in the grip of a threatened epidemic of indefinite severity and duration, which, if it continues a short time longer, would absolutely forbid a large gathering of people here, with great risk of widespread contagion. And it should also be considered that a successful effort on the part of some to hold the festival after all would be almost certain to foster a lack of unanimity among the merchants which would augur ill for the complete success of the celebration. To sufficiently advertise the event, prepare attractive premium lists, secure worth-while features, plan a program, stage a big parade, etc., are herculean tasks when but a few days are at the disposal of those in charge, as the workers in a very recent year will volubly testify.

When all things have been considered and all due respect accorded the honest belief of a considerable number of merchants that it is not best to defer what has become a recognized and popular annual event here it would seem to be unwise at this late day, in the face of other obstacles which present themselves at this particular time, to attempt to carry out the homecoming this autumn. A partial failure would make success a year from now, perhaps, much more difficult.

There are doubtless good arguments in favor of the celebration, but it is unfortunate that they were not presented several weeks ago, at the proper time, when matters might have been satisfactorily arranged.

Only loyal support from the city as a whole could assure the success of the festival this autumn, and it would seem that this would be lacking, for the reasons stated and others, perhaps, equally as good.

RIGHT BACK AT US.

That north and south should be rankly partisan seems most natural, in view of their widely varying conditions, climatic and otherwise, and the peculiar advantages of which residents in each can boast, so we are not greatly surprised that one of our southern journalistic friends, editor of the Lauderdale (Fla.) Herald, should have taken issue with us in contrasting the high cost of living in north and south in favor of the former. But the offending editorial and the rejoinder it provoked are here reproduced and will speak for themselves, and those who read them can either stay here or go south, just as they please! And we particularly appreciate the compliment (?) about the milk.

Surcease of Sorrow.

When the high cost of living burden seems unbearable, consider for a moment that Tampa, Fla., apples are selling at a dollar a peck, potatoes at 90 cents a peck, milk at 20 cents a quart, and other foodstuffs in proportion. It would seem that a well-lined purse would be essential to happiness in that southern clime.—Salem (Ohio) News.

The above item came to the Herald as marked copy and was probably intended for a wee bit of a josh and no doubt the sender really sympathizes with us for having to pay such prices, but let's see if we really need the sympathy of our Salem friend. In the first place the prices are somewhat exaggerated. Milk in Fort Lauderdale sells for 15 cents per quart, instead of 20, and potatoes are 75 cents a peck instead of 90. Apples are not grown in this state and are therefore as high probably as are Florida oranges in Salem. But while we are paying 15 cents for milk where our friend in Salem is paying seven or eight cents we are missing that coal bill that he is dreading. We do not have to purchase a $25 overcoat for each one of the boys this fall; we do not have to spend half of our summer's income for woolen underwear for the entire family; we need not worry about the medicine chest being filled with cough syrups, antiphlogestine plasters and quinine. We take our pole and line and go out for an hour or two in the early morning and besides having a lot of sport and getting plenty of good, healthful exercise can supply the family with meat for a couple of days. Instead of paying 30 cents a pound for a few vegetables if our appetites crave them in February, we go out in the garden and pull them. There's a thousand ways we can substitute for the lining of that purse, brother, and while we're doing it we can be warming ourselves in the glorious sunshine that streams into our front porch, and breathing the pure salt air fresh from off the Atlantic ocean instead of inhaling the poisonous fumes of a gas or coal stove in a stuffy room. Don't weep for us, we are getting along fine, thank you.

MERE BYWAYS, THE OTHERS.

When the East Palestine Leader rushes to print with the declaration, in its boldest type, that the near-city has in immediate prospect "a business change on our street of importance," the inference seems clearly to be that other avenues of communication within its confines are mere alleys in comparison with the great white way on which this splendiferous metamorphosis is soon to occur.

A MEANS TO AN END.

"There is only one long-eared animal," declares the New Waterford Magnet, with a frankness as rare as it is delightful, "that insists he must whistle when he enters the postoffice lobby. Some of these days this antipode will have a wind valve placed in the top of his cranium, when his whistle bag will cease to respond." The recital ends here, leaving the rest to be imagined, but it seems safe to conjecture that the writer had a tomahawk or similar instrument in mind as most appropriate for the contemplated cranial operation.

What The Readers of The News Read
20 YEARS AGO
(Issue of September 25, 1897.)

Miss Estella M. Green and Thomas H. Cyrus were married September 23 at 8:30 p. m., by Rev. B. F. Boyle, East Main.

Mr. and Mrs. Charles M. Wilson celebrated their seventh wedding anniversary last evening at their home on Newgarden street.

The new store owned by H. Cohen, of this city, was formerly opened at East Liverpool last evening. About 8,000 people attended.

Dr. A. L. Cope, of Winona, arrived here this morning from Grand Rapids, Mich., where he has been in a hospital for the past 10 weeks.

A daughter has been born to Mr. and Mrs. Walter A. Coy, of Woodland avenue.

Harry W., son of Mr. and Mrs. Charles McMahan, living four miles east of the city, died this morning.

Miss Millie Matthews returned this morning from Pittsburg, where she attended the millinery openings.

Miss Emma Morlan left this morning for Barnesville to attend Friends Yearly meeting.

Mrs. Leonard Hoopes returned last evening from Cleveland.

H. A. Burke and William Voneman returned last evening from a business trip to Butler, Pa.

EAT BIG MEALS! NO SOUR, ACID STOMACH, INDIGESTION OR GAS

"Pape's Diapepsin' is quickest, Surest Stomach Relief Known—Try It.

Time it! Pape's Diapepsin will sweeten a sour, gassy, out-of-order stomach within five minutes.

If your meals don't fit comfortably, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is usually a sign of acidity of the stomach.

Get from your pharmacist a fifty-cent case of Pape's Diapepsin and take a dose just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea, debilitating headaches or dizziness. This will all go and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

"Pape's Diapepsin helps to neutralize the excessive acid in the stomach which is causing the food fermentation and preventing proper digestion.

Relief in five minutes is waiting for you at any drug store.

These large fifty-cent cases contain enough "Pape's Diapepsin" to usually keep the entire family free from stomach acidity and its symptoms of indigestion, dyspepsia, sourness, gases, heartburn, and headache, for many months. It belongs in your home.

Canton—The seriousness of the fuel situation here became evident when the president and general manager of the Northern Ohio Traction and Light company pointed out to the mayor that unless conditions soon improve that it might be necessary to shut off some of its service.

High Prices and Sickness.

Nobody can afford to be sick with the cost of living at the present high mark. It is cheaper and more sensible to prevent sickness than to pay doctor bills. Take Foley's Honey and Tar in time to check colds, stop coughs and relieve croup before serious illness attacks a weakened constitution. Bolger & French.

Weather conditions were not favorable for the sugar and corn crops in the Union of South Africa in the last year. The corn crop will be 10 per cent below normal, and, due to a much increased acreage, the sugar production will slightly exceed the totals of other years.

USING YOUR BANK

SOME people find it convenient to call at the Bank every day; others call only occasionally. This Bank encourages frequent visits at the Bank. In this way all money may be safely deposited, when it comes in and there is no risk of loss by fire or burglary between the time money is received and the time when it is desired for use.

Desire to Support the Government Is Practically Universal

By WILLIAM JENNINGS BRYAN, Statesman

ANY dissension among us as to the prosecution of the war will have a tendency to prolong it and make it more costly in money and men. The more any one favors peace the more loyally he should support the government as the only means of hastening peace. There can be but one end to the war—the overthrow of Germany. I find the desire to support the government practically universal. If a different impression prevails anywhere it is based on the fact that newspapers report the exceptional rather than the ordinary thing.

W. J. BRYAN.

IF ONE MAN OF A THOUSAND UTTERS SOME DISLOYAL SENTIMENT THE DISLOYALTY OF THE ONE MAN IS ANNOUNCED WHILE THE LOYALTY OF THE NINE HUNDRED AND NINETY-NINE IS NOT EMPHASIZED.

We shall, of course, win the war. If Russia is overwhelmed we shall merely have a new situation to cope with. But I have great faith in the ability of Kerensky.

Failure of Russia to hold her own probably would encourage the German war party. This would affect the duration of the war, SINCE OUR IMMEDIATE SUCCESS DEPENDS ON THE DISCOURAGEMENT OF THE TEUTON MILITARY PARTY.

We Fight That Autocracy May Never Again Lift Its Head

By WILLIAM C. REDFIELD, Secretary of Commerce

THIS war is a clean cut fight between autocracy and democracy. It must be fought out whether we will or no. If it is not fought out today it will be fought out later on. It is the greatest political conflict of the ages arising anew to threaten us. It is an incident merely that the physical locality of the fighting happens to be across the sea.

AUTOCRACY HAS SHOWN ITS CRUEL TEETH AND BY ITS ACTS HAS DECLARED ITSELF TO BE THAT WHICH THROUGH THE AGES IT HAS BEEN. IT IS LUSTFUL, BARBAROUS AND SELFISH.

What do we seek? We seek an end to these things. We seek an end such that autocracy will never again lift its head to threaten man. We hope it will be such an end that this cruel ruthlessness will cease to be, and I hope the system out of which it rose and which gives it vigor will pass away and that, broadly, what there needs to be done will be done TO REMOVE FOREVER THIS MENACE FROM THE EARTH.

Total Absorption of Excess Profits Would Be Unwise

By Governor EMMETT D. BOYLE of Nevada

I BELIEVE in a very high tax on the profits of both individual and corporate concerns which make abnormal earnings as a result of war conditions.

I do not believe, however, in the total absorption of excess profits, for the reason that the country must depend for unusual supplies during the emergency on the initiative of private enterprise, which should therefore be allowed rapidly to redeem its capital investment made for war purposes alone and which should likewise be allowed to make some earnings compensatory for THE RISKS INHERENT IN ANY EMERGENCY ENTERPRISE.

After caring for this contingency it is certainly indefensible that patriotic enterprise should utilize the nation's misfortune as a means to excessive private gain.

IT APPEARS TO ME THAT THE WAR REVENUE BILL HAS BEEN BEGUN ADEQUATELY TO TAX EXCESS INCOMES.

RHEUMATISM LEAVES YOU FOREVER

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System Within Twenty-four Hours.

Floding's Drug Store whom you all known is authorized to say to every rheumatic sufferer in this vicinity that if two bottles of Allenrhu, the sure conquerer of rheumatism, does not stop all agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenrhu has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and piteous and where the patient was helpless.

Allenrhu relieves at once. Immediately after you start to take it the good work begins. It searches out the uric acid deposits, dissolves the secretions and drives rheumatic poison out of the body through the kidneys and bowels.

It's marvelous how quickly it acts. Blessed relief often comes in two days, and even in cases where the suffering is most pitiful all traces disappear in a few days.

Mr. James H. Allen, the discoverer of Allenrhu, who for many years suffered the torments of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless Allenrhu decisively conquers this worst of all diseases, and he has instructed Floding's Drug Store to guarantee it in every instance.

TAFT TO HELP DEDICATE MEMORIAL TO McKINLEY.

Youngstown, Sept. 25.—Speakers for the dedication October 5 of the McKinley Memorial in Niles were announced Monday. They include former President William Howard Taft, Senators Atlee Pomerene and W. G. Harding, Gov. James M. Cox of Ohio, Secretary of War Newton D. Baker and Joe Mitchell Shapple, editor of the National Magazine of Boston. President Wilson wrote that he would be unable to participate.

TAKING CATHARTICS EVERY DAY FOR WEEKS DON'T CURE STOMACH TROUBLE

They do not eliminate the poisonous Bile Accretions from the system, so declares a leading Chicago Stomach Specialist. Often Gall Stones, Cancer and Ulcers of the Stomach and Intestines, Auto Intoxication, Yellow Jaundice, Appendicitis and other dangerous ailments are the consequences. Mayr's Wonderful Remedy is the ideal prescription for Stomach, Liver and Intestinal ailments. It has restored millions. One dose will prove that it will help you. Mayr's Wonderful Remedy is for sale by Bolger & French, and druggists everywhere.

WANTED—CLEAN COTTON RAGS AT NEWS OFFICE. 178tf

Mr. Auto Owner A Perfect Carbon Remover

and Lubricant combined. It removes Carbon and Lubricates AT THE SAME TIME. The J. M. Pease Lubricant Carbon Remover is a scientifically prepared compound, properly blended with a Reliable Lubricant. for the night. Results are guaranteed Accessory for the Automobile, Motorcycle, Motorboat, Motor Truck and Gas Engine of every description. Saves gas. Assures maximum power. Reduces repair bills.

WORKS WHILE YOU SLEEP

Don't lay up your car to have your carbon removed and pay $2.50 to $5 to have valves ground. Simply apply compound when car is put up for tre night. Results are guaranteed. Lubricant Carbon Remover "works while you sleep." Used and highly endorsed by Auto Owners. **Proven Best by every test. Sold under a Positive Money Back Guarantee. Price $1 per can prepaid.**

HOLSTEINS FOR MILK, JERSEYS FOR BUTTER

Wocster, Sept. 25.—If you want a cow that will give just plenty of milk, buy a Holstein, for they produce more milk on a given amount of feed than any other breed. But if you want a cow to give milk which will produce the most butter, considering feed eaten, get a eJrsey. That is the advice of the Ohio Agricultural Experiment station here.

More than 150 cows of each breed owned by farmers who sent records to the experiment station were included in this study. The Jerseps ate 106 pounds of digestible nutrients for each hundred pounds of milk produced, while the Holsteins consumed but 91 pounds. For each pound of butterfat produced the Holsteins consumed 26 1-3 pounds of digestible nutrients and the Jerseys only 19 5-8.

The Jerseys ate 18 1-5 per cent more butterfat than the Holsteins were assumed to average 1,200 pounds in weight and the Jerseys 850 pounds.

A Valuable Health Hint.

Foley Cathartic Tablets keep the bowels open and regular, the liver active and the stomach sweet. They cause no pain, nausea nor griping. They relieve indigestion, sick headache, biliousness, sour stomach and like indispositions. Stout persons enjoy them, as they are so comforting and helpful. Bolger & French.

Grip and Pneumonia
Brazilian Balm Kills the Germs

Brazilian Balm Has Not Lost a Case of Grip or Pneumonia in Nearly 40 Years. No Matter How Desperate or Hopeless, Stick to the Balm, and Give Nothing Else.

Four cases in this village, that no one thought could live, but they stuck to the Balm alone, and came out of the pneumonia in five days. One would not use the Balm and he died.

Years ago my little son of 6 was stricken with double pneumonia. The doctor cried when I told him I would depend upon Brazilian Balm alone. He had no faith and thought the child would surely die. But I gave him 10 drops every 15 minutes, and rubbed it hot on chest and back three or four times a day, and in five days he was up and well.

A month later another son was stricken in the same way, and also cured in five days. Neither one has had any lung trouble since to this day.

Then in grip it is just as effective. And it never leaves a "grip-wreck," because every germ is killed.

Now look at the grip and pneumonia epidemic in Philadelphia—700 deaths reported in four days. I confidently believe that Brazilian Balm would have saved every one of them. Why cannot the doctors cure these cases? They have no germicide, that is the reason. The Balm kills the germs—that is the secret. If they have a remedy as good as the Balm, why do they not use it and save all these people?

Do not mix Brazilian Balm up with quinine, opiates, etc. These dopes cure nothing and never did—they kill no germs—but they will kill the effect of the Balm. If you want the Balm to have full effect use nothing else.

In grip and pneumonia get the large bottles, and use freely and often. Three or four doses a day is little good. In pneumonia give every 15 minutes. In grip give every half hour, and a teaspoonful at night in a little water.

HIGH COURT WILL SETTLE VOTE FIGHT

Columbus, Sept. 25.—The Ohio supreme court will decide whether there is to be a suffrage battle at the polls.

That tribunal will be asked to admit to hearing the charges of suffragists that fraud permeates the anti-suffrage petition for a referendum on the Reynolds presidential suffrage law, and if it does admit the case, to determine whether the petiton of the antis is valid.

The decision will settle whether the law will be submitted to a vote of the people November 6.

This is the result of an agreement of counsel for both sides late Monday. Counsel agreed to have the court of appeals enter a pro forma, or matter of form, ruling sustaining the common pleas court in holding it had no jurisdiction to go back of the certificates of boards of elections to question the validity of signatures, once the boards had certified the petitions to the secretary of state.

Appeals Court Speeds Case.

The court of appeals made this entry in conformity with the agreement between Frank Davis, Jr., attorney for the suffragists, and Timothy S. Hogan, representing the anti-suffragists, with whom are associated also Charles Johnson and Peter Dempsey of the attorney general's office, representing the secretary of state.

This means was adopted to get the question before the supreme court, and the suffragists carried it there Tuesday.

Anti-suffrage lawyers said they joined in the procedure with reluctance, feeling sure the appellate court would dismiss the whole thing on hearing, but that they realized the necessity for haste and the importance of having the issue finally setled.

In the meantime, there is yet to be settled the case in common pleas court, in which the suffragists gained a temporary restraining order holding up petitions from 22 counties on the ground that boards of elections of those counties did not make proper certifications as to the sufficiency of the petitions when filing them with the secretary of state.

Get Petitions Corrected.

The anti-suffragists announced Monday that from 11 of those counties corrected certificates had been received, and that new certificates would come from the remaining 11 Tuesday.

Then the antis will go into common pleas court asking that the temporary injunction be dissolved. The suffragists will contend that the petitions from the 22 counties were permanently invalidated by the insufficiency of the original certificates.

The supreme court ruling in this suffrage fight will have far reaching importance, as it will set precedents for future referendum action.

THE GROWING GIRL

A girl when in her teens is passing through a critical period of her life. The transition from childhood to maturity is not always easy; consequently, in many cases health breaks down entirely and the girl goes into a decline and dies young. If she escapes this fate, she may fall into a state of permanent ill-health. It is of the utmost importance, in order to insure normal and healthy development, that proper precautions be taken, and nothing has proved more helpful than the faithful use of Lydia E. Pinkham's Vegetable Compound, the great woman's medicine and tonic.—Adv.

Youthful Robbers Joke With Victims

Canton, Sept. 25. — Two armed youths entered the clothing store of William Teplansky, in the central section of Canton, at noon Monday, bound, gagged and then robbed Teplansky, two clerks and an express messenger and made their escape with about $100.

The bandits, one of whom was about 17, spent half an hour in the store. They laughed and joked with their victims but went about their business with a thoroughness that marked them as old hands at the game, police say.

Not only were the pockets of the four men rifled but the safes and cash registers in the store were looted.

RHEUMATISM

Physician Believes a Genuine Remedy for the Disease Has Been Found.

Rheuma, the wonderful rheumatism remedy sold by Bolger & French and all druggists, give quicker and more lasting relief than other remedies costing many times as much.

Rheuma passes the deadly poisonous secretions into the bowels and kidneys, from which they are quickly thrown off in a natural, healthy way.

Read what a reputable physician says about Rheuma: "I have made a most careful investigation of the formula employed in the manufacture of Rheuma, and I heartily recommend it as a remedy for all forms of rheumatism, and altogether different in composition from the remedies usually prescribed."—Dr. Lyons.

This should give any sufferer from rheumatism confidence to try Rheuma.

Daring French Aviator and Zouave Escape From Germany

They Bribe Peasant Woman With Chocolate, Tea and Canned Goods and Get Overcoats and Old Felt Hats of Civilians.

Trace Road Map of Country by Walking at Night to Escape Foe—Finally Reach Holland and Freedom.

A REALLY gripping story of one of the most remarkable episodes of the great war has been told me by Adjutant Pilot Henri Reservat, a hero of the French aviation corps, who recently succeeded in escaping from a German prison camp and is now enjoying once more the free air of France. I wish I could convey in writing the modest, simple, matter of fact manner in which Adjutant Reservat speaks of his strange experience, says Paul Ayres Rockwell, staff correspondent of the Chicago Daily News.

Adjutant Reservat was a pilot with the famous fighting escadrille N. 65, which was one of the first flying groups to go to the Verdun front last year. After many successful reconnoissances and combats he was ordered on May 22, 1916, to attack and destroy a German observation balloon. The attack was successful, and Reservat sent the "drachen" flaming to earth. But while he was diving on the balloon and destroying it four German aeroplanes came up behind him and began riddling his machine with bullets.

Reservat was eight kilometers (four and eight-tenth miles) within the German lines and subjected not only to the attacks of the four aviators, but to a grilling shell fire from anti-aircraft guns. Yet he did not lose hope of getting back home. He headed for the French lines with his four assailants after him, firing all the time. Reservat's machine gun was a fixed one and could only be fired in the direction in which his machine was headed. Several times he tried to maneuver so as to return the German fire. All his efforts were in vain. A number of bullets pierced the motor, and he was forced to land in German territory.

Germans Congratulate Reservat.

The four German pilots who had been attacking Reservat also landed. They congratulated him upon his gallant struggle, then wrote a note confirming his having destroyed the drachen assigned him and telling of his being captured after a heroic attempt to escape. The note was carried up by a German aviator and dropped into the French lines. Reservat was put on a train and taken away to a German prison camp near Mayence (the German Mainz.)

Captivity was not agreeable to this eagle, who loved the free air, and Reservat at once began planning his escape. The camp at Mayence was too well guarded, however. Then he was moved to Weilburg, where the regime was even more strict. Seeing that there was little hope of getting safely away from this camp, Reservat volunteered to go to work in a great agricultural camp and succeeded in being transferred to Giessen.

Here there was more freedom. The prisoners were even allowed an hour a day in which to go out into the little village near by to purchase coffee and other bits. Reservat made the acquaintance of an old peasant woman and, pretending that he wished it as a protection against the cold, asked her to sell him a civilian overcoat. The woman consented to sell the coat on condition that it should be paid for with chocolate, tea, canned goods and other edibles, which Reservat received in weekly parcels from France. The exchange was made, and the old woman also sold a civilian coat to a young zouave sergeant, who was to be Reservat's comrade in the dash for liberty. For several cakes of chocolate the scheming Frenchmen also bought from a servant girl two rough felt hats.

Road Map In Parcel.

Many months before one of the prisoners had received, hidden in a parcel from France, a good road map of Germany. Reservat and his comrade made a tracing of it. They also laid by a little store of chocolate, biscuit and canned foods sent them from home and finally, on March 18, 1917, all was ready for the departure. Taking advantage of a half hour's lateness in locking the door of their barracks, the two men skipped out in the darkness and were en route for liberty.

Here are a few notes describing the journey, written by Reservat during the long daylight hours in which he and his companion lay hidden in thickets or abandoned huts:

"Departed at 8:15 the evening of March 19, 1917, and got away without incident. We took the route for Limburg and thought to gain several kilometers by cutting across through the woods. Alas, at the end of an hour and a half, we found ourselves lost in the forests! Finally we discovered the main road and crossed the Lahn. Rain and an intense darkness. Taking our direction northwest, we again got lost and walked without knowing where we were going until 3 a. m. Then we came to the edge of a large wood and entered a thicket of small pines, where we lay down near the road. A rainy day, some snow. We are suffering from the cold.

"March 20.—We left our hiding place at 8:15 p. m. and set out toward a great light, which we thought must be the station at Limburg. Before arriving near this light we met a man, who stopped and looked at us closely. We made haste to say good night to him, and he went on his way. We arrived at the city. Sad to say, it was not Limburg, and we could not make out the name of the place. We continued our march toward the northwest and finally found our correct road at Schulbertz. A very dark night, with a little rain. We stopped at 5 a. m. and lay down on the edge of a wood. A very critical morning. A peasant came and cut wood at three yards from us. I will never understand how it happened that he did not see us. We changed our hiding place as soon as the peasant left and were more tranquil until the evening. A rainy, snowy day."

Had Narrow Escape.

Reservat told me that a small boy was with the peasant who cut the wood and that once the peasant looked directly at the place where the two Frenchmen were hidden, saying something in German. Then he picked up his bundle of wood and with the child went away. The diary continues:

"March 21.—Departed at 9 a. m. along the same road. Upon arriving at the first village we noticed that again we were wandering. We looked at our map, but unfortunately it was not very detailed, for this region was entirely left out of our itinerary, which had been made to leave from Giessen. We tried vainly to find the right road. Useless effort. So again we set off toward the unknown, trusting in our good star.

"We passed through several villages and arrived, without knowing it, at the gates of Limburg. Crossed part of the city without incident apart from meeting several workmen and found ourselves on the correct route, in the direction of Bonn.

"March 22.—Departure at 8:30 p. m. Fine weather. Marched without incident until morning. We have stopped in a wood of small pines, for it is the best of hiding places, especially as since we left the prison camp we have not been discovered. It is very cold, and it was not yet daylight when we stopped. We tried to warm ourselves by running up and down the road. We were almost caught by a civilian, whom we did not hear coming. It took only one jump for us to penetrate into our wood, and we are resting tranquilly in our hiding place.

Reach Heights of Rhine.

"March 24.—Departure at 8:15 p. m. Good march. Lost our way about 2 a. m., but found it again on the banks of the Rhine. Following the Rhine, we arrived at Beul. We decided to hide on the heights that overlook the Rhine. Were disillusioned by the woods we found there. Finally we discovered an abandoned stone quarry, where we found a little hut. We entered, barricaded the doors and have passed a most exciting day. Are worried because of the children who have been playing around all day, and who seem to find it very strange that the hut is closed up.

"Before dark we came out of our hiding place and watched the sun set from the banks of the Rhine, just like tourists.

"March 26.—We took our departure in very bad weather, snow and an icy rain. We are wet to the skin and have difficulty in walking. We got lost about 3 a. m., but managed finally to stop near the point we had decided upon in advance. We are sheltered in a large wood of pines, but have been on the watch all day, because we are near a large city. Are still wet to the skin, for it is impossible to dry ourselves. A very hard and very cold day.

"March 27—En route at 8 p. m. We pass the city of Dunn. After a little trouble we find our correct road. We follow it half the night, then, not to change our custom, we got lost.

Comrade Wants to Give Up.

"My comrade is again about to give up in despair, being completely demoralized and fatigued and having a blistered foot.

"March 28.—We set out at 8 p. m. We find our route, not without trouble, and take the direction of the frontier. We stop at 2 p. m. and rest, hidden, until 11 p. m. the following night.

"March 29—Departure at 11:30 p. m. Bad weather, rain and wind. We are happy to be able to drink rain water. We take the right road and arrive near our goal. About 2 a. m. the sky became light. We find the polar star, which leads us to freedom. Cutting across the fields we march for about eight kilometers, and when the sun rises we find ourselves in Holland, free and saved! We are tired out and dirty from head to foot."

The two soldiers were well received at the frontier village and rested three days with a family of Belgian refugees. Then they went to Rotterdam, where they rested for a month. Crossing to England, they finally reached France on June 6. Both men were still very tired and were granted a long period of repose by the French war department.

Persons who want anything know that The News is the Want Medium in this territory. So read it.

First Valor Medal For Root.

The first valor medal of the National Arts club is to be awarded to Elihu Root for his work as head of the American mission to Russia.

Fuel oil that works well in engines of certain types is being produced in Sweden from shale and slate.

GIVE STRENGTH OF NEW ARMY UNITS

Washington, Sept. 25.—American soldiers will be armed literally to the teeth when sent into the trenches against the Germans.

In addition to the usual rifles, bayonets and pistols with which the men now are armed, there will be added to the fighting equipment of each regiment 480 trench knives, 40 to each company; 1,192 machine guns, 16 to each company, and three one-pound cannon.

Details of the new fighting equipment were given in a statement by Secretary Baker outlining the new army organization for overseas service.

This reorganization increases the ratio of artillery to infantry from three to nine, as at present, to three to four. A corresponding increase is made in machine gun strength. In addition, there are sections of sappers and bombers, who have important parts to play in the new warfare.

The strength of the new organizations will be:

Division, 27,152; infantry brigade, 8,210; artillery brigade, 5,068; infantry company, 256; machine gun company, 178.

Each infantry regiment will have a strength of 103 officers and 3,652 men. There will be one headquarters company of 313, three battalions of four rifle companies, each totaling 3,078, one supply company of 140, one machine gun company of 178, and one medical detachment of 56.

The rifle company has 250 men and six officers. It is composed of a company headquarters with two officers and 18 men, and four platoons. Each platoon has two sections of riflemen of 12 each; one section of bombers and rifle grenadiers of 22 men, and one section of auto riflemen of 11 men and four guns.

The 178 men of the machine gun company will be armed with 12 heavy machine guns and four spare guns.

The organization of the infantry division in detail is as follows:

One division headquarters, 164; one machine gun battalion of four companies, 768; two infantry brigades, each composed of two infantry regiments, one machine gun battalion of three companies, 16,420; one field artillery brigade composed of three field artillery regiments, one trench mortar battery, 5,608; one field signal battalian, 262; one regiment of engineers 1,666; one train headquarters and military police, 337; one ammunition train, 962; one supply train, 472; one engineer train, 84; one sanitary train composed of four field hospital companies and four ambulance companies, 949—total, 27,152.

Each regimental headquarters will consist of seven officers and 294 men. There will be a headquarters platoon of 93, a staff section of 36, an orderlies section of 29, a band section of 28, a signal platoon of 77, including a telephone section; a sappers and bombers platoon of 44, a pioneer platoon of 55 for engineer work, and a one-pounder cannon platoon of 33 officers and men.

The transportation equipment to each regiment will be 22 combat wagons, 16 rolling kitchens, 22 baggage and rations' wagons, 16 rations carts, 15 water carts, three medical carts, 24 machine gun carts, 59 riding horses, eight riding mules, 332 draft mules, two motorcycles with side cars, one motor car and 42 bicycles.

There will be 13 machine gun companies to the division. Each of the four infantry regiments will have one, each of the two brigades a machine gun battalion of three companies and the division will have a separate machine gun battalion of four companies.

This gives the division a mobile machine gun strength of ten companies, which can be used as special needs require, while each regiment still has its own machine gun equipment in one of its component companies. And, in addition, there are 48 sections of auto riflemen each section carrying four light machine guns.

Canton—The first football accident of the season occurred when Joe Wagner suffered a fracture of his right collar bone while making a tackle.

Gen. Frederick Funston was once a railroad conductor.

MOTHER! YOUR CHILD IS CROSS, FEVERISH, FROM CONSTIPATION

If Tongue is Coated, Breath Bad, Stomach Sour, Clean Liver and Bowels.

Give "California Syrup of Figs" at once—a teaspoonful today often saves a sick child tomorrow.

If your little one is out-of-sorts, half-sick, isn't resting, eating and acting naturally—look, Mother! see if tongue is coated. This is a sure sign that its little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomach-ache, diarrhoea, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated poison, undigested food and sour bile gently moves out of the little bowels without griping, and you have a well, playful child again.

Mothers can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs;" then see that it is made by the "California Fig Syrup Company."

Ohio Starts Library Fund For Soldiers

Columbus, Sept. 25.—With a proclamation to the people of Ohio, the Ohio branch, Council of National Defense, has inaugurated the million-dollar "soldiers' book fund" campaign for this state. This week is the campaign week throughout the nation, and $125,000 has been set as Ohio's mark.

This is the proclamation:

"Nothing could be more gratifying than the attitude of all citizens toward the soldiers of the republic who have responded to the call of patriotic duty in this world war.

"There is everywhere manifest a desire to provide for them not only the necessary equipment of arms and food and clothing, but every material and moral comfort not inconsistent with efficient military service.

"Among the manifest needs of the intelligent young men who constitute our vast army now in the making, is a generous supply of good literature—periodicals and books that will afford healthful entertainment, instruction and inspiration.

"In the intervals of relaxation following arduous physical training that makes a good soldier, there is a natural hunger for intellectual as well as material food.

"Good reading supplies this. It shortens the lonesome hours, eliminates homesickness by supplying an essential home comfort. It renders camp life more attractive, aids in discipline. And finally, it makes better soldiers who will also be better citizens when they come back under the eagles of victory to resume their peaceful citizenship in the republic.

"The campaign is on to raise $125,000—Ohio's share of the $1,000,000 to provide a first-class library service for all our soldiers. The sum is small. Distributed over the state it will impose a burden on no one.

"Here is a priceless opportunity to make contributions to the welfare of our soldier boys.

"This movement has the approval of the secretary of war, of Maj. Gen. Pershing and of Gov. James M. Cox, who in a statement to the public, declared: 'For the sake of those who wear the uniform of the nation at war, and who are proud to call Ohio their home, we can do no less than our part in this fine undertaking.'

"Every patriotic citizen is urged to aid in this worthy enterprise."

Youngstown—Workmen who were laying steam mains for heating accidently stuck a pick in the water main and for a time a regular geyser was in action. Traffic was blocked, as few people cared to take a ducking, until the water was shut off at the main.

IN MOST CASES OF NERVOUS WEAKNESS, NEURASTHENIA, ANEMIA, SLEEPLESSNESS AND A GENERAL "RUNDOWN," "ALL IN" CONDITION PHYSICIANS PRESCRIBE PAMGIN AND GENTIAN

Trembling Hands, Halting Step, Lack of Confidence, Timidness, Bashfulness, All Caused by Overworked and Abused Nerves.

Take Pamgin Tablets three times a day for two days and you'll feel like a new man. Take one box (two weeks' treatment) and you'll feel 10 years younger.

Old-fashioned tonics are good as far as they go, but they don't go far enough. Overwork, excess in eating, drinking, smoking, late hours and too strenuous living means that your nerves have been abused and you need the best remedy you can get to put them in good shape.

Get a box of Pamgin Tablets today. In two days you'll step livelier, your eyes will brighten; you'll start to grow younger instead of older; and soon you will regain your old time vigor and confidence, and no one will dare suggest that you are a "dead one," a "down and out," or have "lost your grip."

No matter from what cause your nerves have become shattered you can put your old time force into them and make them as steady as an athlete's and as strong as steel. How happy you will be to again be able to do well the things that lack of confidence prevents you from doing. Be strong, be vigorous; get back your old time ambition and be your own happy, robust, contented self again. Pamgin Tablets are guaranteed by all enterprising pharmacists. Bolger & French can supply you.

Mail orders filled on receipt of price, $1.00. The Pamgin Company, Wheeling, W. Va.

Handsome Draperies

are the crowning glory of a beautiful interior. It is surprising how tasteful hangings improve the looks of a room. We shall be glad to give you the benefit of our experience in this matter.

The Leland Watch Shop

Social and Personal

Birthday Surprise.

About 35 relatives and friends dropped in on Charles Lumm at his home on Broadway in a surprise fashion to help him celebrate his birthday anniversary Sunday afternoon. He received as gifts 17 pairs of silk socks. A two-course lunch was served, after which cards and a social evening were enjoyed. Those from out of town were Mrs. James Spangler and son, Howard, and Mrs. Roy Humett and three little daughters, Sara, Edna and Grace, West Middlesex, Pa.; Mr. and Mrs. Harry Marso and two sons, Paul and Roy, Niles, and Mr. and Mrs. Ed Mack and Mrs. Votaw, of Alliance.

—o—

Entertained for Sister.

Mr. and Mrs. William Henshillwood, of Ellsworth avenue, entertained at dinner Sunday at their home in honor of Mrs. Henshillwood's sister, Mrs. Anna Metzger, of Rochester, Pa. Guests were Mr. and Mrs. C. D. Wonsetler, of Kent, and Mrs. Pauline Herr, Mrs. Stella Nesbit and son, of Alliance. Mrs. Metzger left for her home in Rochester Sunday evening.

—o—

Honored Birthday.

Star Club members surprised Mrs. Hattie Armstrong, of the Benton road, Monday, reminding her of her birthday anniversary by the presentation of a beautiful pin. The afternoon was spent socially and nice refreshments were served.

—o—

Installation and Smoker.

Salem council No. 1818, K. of C., at the meeting of October 11 will have installation of officers, followed by a smoker. District Deputy G. V. Dugan, of Wellsville, will be present to install the officers.

—o—

Knox-Craft.

Justice C. F. Lease officiated, at his office, Tuesday afternoon at the nuptials of Mrs. Esther E. Knox, of Jersey City, and Nathan Craft, of Washingtonville.

Fate of Harvest Homecoming Still Hangs in Balance

The fate of Salem's annual Homecoming Harvest festival this fall still hangs in the balance.

A petition circulated among some of the merchants Monday, asking that the decision reached at a meeting of a few of the business men some weeks ago, at which time it was voted to do away with the celebration this fall, be reconsidered, shows the general opinion of merchants visited to be in favor of holding the fall festival as usual this year.

The petition was presented to 13 business men and 12 of them signed it as being in favor of the movement. The thirteenth merchant declined to add his signature to the petition but expressed himself as being in favor of holding the festival if the other merchants of the city favored it.

The petition with its signatures, it is understood, will be presented to Secretary A. R. MacFarland, of the Chamber of Commerce, and the secretary asked to call another meeting or interview the rest of the merchants as to their opinions on the proposed move. Since the petition was circulated it is reported that several of the merchants who signed it have expressed doubt as to the possibility of holding the fall attraction on account of the infantile paralysis situation in this city.

As Health Officer Dr. E. J. Schwartz was out of the city Tuesday it was not possible to interview him on the subject, but another member of the health board stated that he did not believe the present situation would effect the homecoming celebration unless new cases of the disease developed within the next week. It was the healther's opinion that the present scare would be over by the end of the week.

FLORENCE M. NUSLY

of Canton, will accept a limited number of piano pupils in Salem, on Saturdays. Address Room 15, Harris Bldg., corner Market Ave. N. and Third St. N. W., Canton, Ohio.

216j eod

Little R Club Thursday.

The Little R club will meet Thursday instead of Friday evening, at the home of Miss Agnes Stiver, Cleveland avenue.

A WONDERFUL MEDICINE

Thankful People Praise Thompson's Kidney Tablets.

Salem people rely upon this remedy. If it ever fails to give relief, your money back.

For pain in the back, rheumatism, sciatica, run-down condition, try this latest scientific remedy. It works quickly and surely. The entire system will benefit by taking Thompson's Kidney Tablets, as they have a tonic effect, cleansing the system of impurities and imparting a tone and vigor. Bolger & French sell them in Salem for 60 cents a box.

When constipated and bilious, be sure and ALSO use Thompson's Dandelion and Mandrake Pills. They are purely vegetable. 25 cents.

AIRPLANES, BIG GUNS BUSY ON WESTERN FRONT

(By International News.)

London, Sept. 25.—Another violent artillery duel has developed on the West Flanders front, especially east of Ypres, the war office announced today. Attempts by the Germans to capture a British outpost northeast of Lens failed.

(By International News.)

London, Sept. 25.—All along the western front, intense air activity is prevailing. Thirty-four aeroplanes were shot down in one day's fighting, according to the reports of the British, French and German war offices. British and French flyers brought down 20 German machines, while the Germans claim to have accounted for 14 allied aeroplanes.

That the infantry fighting on the West Flanders front may be extended northward from the scene of Thursday's big British victory was indicated by dispatches from the front today, saying that the artillery firing is getting much heavier between St. Julien and the North sea.

Despite the large number of German troops used and the terrible expenditures of lives, the latest thrust at the crown prince against the new French positions at Verdun has resulted in complete failure. At Nois le Chaune, between Devonvaux and Beaumont, the Germans penetrated a French trench section, but were quickly driven out.

JOHN HORGOS GIVEN CORPORAL'S PLACE

John Horgos, native of Austria-Hungary, a resident of this city for the past four years and a member of the second draft contingent to Camp Sherman, writes back to friends that he has just been appointed one of the corporals of Company L, 332nd infantry, and is hard at work and well satisfied.

Horgos' case is particularly interesting because of the fact that in Europe he will have as enemies two brothers, one in the German army and one with the Austro-Hungarian forces, unless they have already been killed, since he has not heard from them for over two years.

William D. Smith Now in France, A Letter States

William D. Smith, who joined the coast artillery from this city shortly after the declaration of war with Germany and was stationed in the east for a time, at Forts Hamilton and Adams, is now in France, according to a letter just received by his parents, Mr. and Mrs. W. T. Smith, East High street. He arrived there September 4, having left this country for "somewhere in France" during August. As yet, it is understood, he has not seen active service, but is in training for handling the big guns now in use in fighting on the west front, as he speaks of handling heavy ordnance. He is a member of the Seventh regiment. Friends and relatives here supposed when he joined the coast artillery that he would be kept in this country, but a change in plans has evidently been made.

MAKE SURGICAL DRESSINGS AT KERR HOME WEDNESDAY.

The Red Cross surgical dressing house, the Kerr property on Lincoln avenue, will be open for work Wednesday morning at 10 o'clock. Mrs. McKee, a Red Cross nurse of Cleveland, who has charge of the surgical dressings for Ohio, Indiana and Kentucky, visited the house Monday, complimented the work being done very highly, and urged an increase in output, as this phase of Red Cross work is one of the most important.

The surgical dressing house is open all day Wednesday, Thursday and Friday of each week. Thursday evening at 7:30 and Saturday afternoons at 2 o'clock. The invitation to help with this work is to everyone.

Here's a Real Hair Grower That Shows Results In Few Days

If your hair is thinning out, lifeless, full of dandruff, and your head itches like mad, it's a sure sign of the dangerous dandruff germ, and quick action must be taken to save what hair you have and start a new growth. Don't wait until the hair root is dead, or then nothing can help you, but get from your druggist four ounces of Parisian sage—it don't cost much and there is nothing you could use that's any better. Dr. Sangerbund, the famous Paris specialist, discovered that dandruff and falling hair are caused by a microbe—then came the discovery of the value of Parisian sage (liquid form) to destroy this germ, prevent falling hair and the formation of dandruff. A few massages with Parisian sage are all that are usually needed, and very soon you should be able to see the new hairs coming in. Parisian sage is women's favorite hair dressing, because it will not stain and makes the hair lustrous, soft and fluffy. Be sure you get Parisian sage (Giroux's), for this brand is guaranteed. Bolger & French can supply you.

READ THE WANT COLUMN.

Notice of Administrator's Sale.

In pursuance of an order of the Probate Court of Columbiana county, Ohio, I will offer for sale at public auction, on Friday, the 26th day of October, 1917, at 1 o'clock p. m., on the premises in the township of West, county of Columbiana, and state of Ohio, the following described real estate to-wit:

Situated in the county of Columbiana and state of Ohio, and being a part of the northwest quarter of section 25, township 16, range 5, and bounded and described as follows: Beginning at the northwest corner of said section; run thence south with the section line 25 chains; thence east 16 chains to a point; thence north 25 chains to the north line of said section, thence west 16 chains to the place of beginning. Containing 40 acres of land.

Also right of way beginning at the southeast corner of said tract; run thence north 16 feet; thence east to the public road; thence south along said public road about 16 feet to the south line of land formerly owned by Granville S. Bentley; thence west to the place of beginning. And being the land conveyed to said William G. Bentley by will of his father, Granville S. Bentley, deceased.

Said property is located about 1 1-2 miles northeast of Lynchburg, near a road leading north from the Kensington-East Rochester road. Appraised at **$1,000.00**

Terms of sale—Said property may sell for two-thirds of said appraisement; one-third cash in hand, one-third in one year and one-third in two years from day of sale, with interest; the payments to be secured by a mortgage on the property sold.

And also in pursuance of an order of the Probate Court of Columbiana county, Ohio, I will offer for sale at public auction, on Saturday, the 27th day of October, 1917, at 1 o'clock p. m., on the premises in the township of Perry, county of Columbiana, and state of Ohio, the following described real estate, situated in the county of Columbiana and state of Ohio, to-wit:

First tract—Known and being a tract of land situated in section 32, township 16, range 3, Perry township, Columbiana county, Ohio. And further described as beginning at a point 859 feet east and 1320 feet north of the intersection of the south line of said section 32 and the east line of the corporation of the city of Salem; thence north 1576 feet to a corner; thence west 500 feet to a corner; thence south 1576 feet to a corner thence west 500 feet to the place of beginning. Containing 18.12 acres; and being a part of the same premises conveyed to William G. Bentley by deed of William M. Hostetter, sheriff, dated July 31, 1879, and recorded in volume 137, page 25, Columbiana county record of deeds.

Said property is not situated upon any road but lies about 369.6 feet east of the east corporation line of the city of Salem, and between the Salem-Washington road on the south and the Painter road on the north, and a portion of said tract is bounded on the south by an alley with an outlet through Roosevelt avenue and Madison avenue to the Salem-Washingtonville road. Appraised at **$2,000.00.**

Second tract—Known as and being a tract of land situated in section 32, township 16, range 3, Perry township, Columbiana county, Ohio.

Further described as beginning at the intersection of the south line of said section 32 and the east corporation of the city of Salem; thence north along the corporation line 2310 feet to a corner; thence east 369.6 feet to a corner; thence south 980 feet to a corner; thence west 180 feet to a corner; thence south 950 feet to a corner; thence east 9 feet to a corner; thence south 150 feet to a corner; thence west 11 feet to a corner; thence south 230 feet to the south line of said section 32; thence along said section line west 174 feet to the place of beginning. Containing 13.16 acres of land, more or less, and being a part of the same premises conveyed to William G. Bentley by Barbara V. Baldwin et al by deed dated August 25, 1881, and recorded in volume 137, page 351, Columbiana county record of deeds.

Said property is situated on the north side of the public road known as the Salem-Washingtonville road, and is immediately east of the east corporation line of the city of Salem. Appraised at **$6,000.**

Third tract—Situated in the city of Salem, county of Columbiana and state of Ohio, to-wit:

Known as and being a tract of land situated in the village (now city) of Salem, in the county of Columbiana and state of Ohio, and known as being a part of the southwest quarter of section No. 32, township No. 16, range No. 3, Perry township, in said county of Columbiana, and bounded and described as follows: Beginning in the east line of said village (now city), at a point in said line 35 chains north of the south line of said section; said beginning place also being the northeast corner of said Joseph D. Fountain's land. Run from thence south on the east line of said village (now city) and west line of other land of said Bentley, 19 chains; thence west 10 chains and 15 links to Bob's land; thence north on the east line of said Bob's land 19 chains and 17 links to a stone at the northwest corner of said Joseph D. Fountain's land, and thence east 10 chains and 35 links to the place of beginning, and containing 19.56 acres of land.

And being the same premises conveyed to William G. Bentley by Joseph D. Fountain et ux by deed dated October 10, 1883, and recorded in volume 148, page 632, Columbiana county record of deeds.

Said property is not situated upon any street, but lies immediately west of the east corporation line of the city of Salem and between McKinley avenue on the south and the Painter road on the north. Appraised at **$3,500.00.**

Fourth tract—Situated in the city of Salem, county of Columbiana and state of Ohio, and known as and being lot No. 13 of Hamilton Howell's addition of lots to the city of Salem, Ohio. Said lot is situated on the north side of Mound street with frontage on said street of 50 feet, and a depth of 165 feet; and being the same premises conveyed to said William G. Bentley by the Salem Land company, by deed dated November 24, 1899, and recorded in volume 244, page 283, Columbiana county record of deeds.

Said property is situated on the north side of Mound street between Union street on the east and Washington street west. Appraised at **$75.00.**

TERMS OF SALE—Any of said tracts may be sold for two-thirds of the appraisement; one-third cash in hand, one-third in one year, one-third in two years from day of sale, with interest; the payments to be secured by a mortgage upon the premises sold.

ALBERT H. KENNEDY,
Administrator of the estate of William G. Bentley, deceased.

Let the Permalife Battery End Your Battery Troubels

By installing the Permalife Battery in your car under the permanent lease system.

A Permalife lease is perpetual. The storage battery is put in service on your car—for lighting and starting or for lighting alone.

Then, when the charge is exhausted, or you need repairs, you stop at our service station in your town, and we exchange a fully charged Permalife battery (in perfect condition) for the one you have been using, if you have complied with your lease agreement.

This is the big, fundamental idea behind Permalife. We replace your Permalife battery with another Perma life battery whenever you need such an exchange, so long as you carry out your lease agreement. We will make these exchanges indefinitely—for any number of years. There is no limit. Permalife service is perpetual.

Lemons Whiten and Beautify the Skin! Make Cheap Lotion

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quarter pint of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, smoothener and beautifier.

Just try it! Make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It should naturally help to whiten, soften, freshen, and bring out the hidden roses and beauty of any skin. It is wonderful for rough, red hands.

Your druggist will sell three ounces of orchard white at little cost, and any grocer will supply the lemons.

(By International News.)

FAVOR "WAR BREAD."

Cleveland, Sept. 25.—One of the resolutions before the United Spanish War Veterans today is aimed to help Food Controller Hoover to conserve the wheat supply. The resolution will ask that the food administration establish a war flour and a war bread. The war flour would be made by compounding wheat and other cereals at the mills.

"A cheaper bread and a bigger profit to the millers and bakers would encourage the use of it," says the resolution.

PLAN AVIATION FIELD.

Cleveland, Sept. 25.—The large Belle Vernon farm at Willoughby may become an aviation field and airplane plant, according to rumors being circulated here today. There are several thousand level acres along the lake suitable to airplane testing. The firm admits a deal is pending for the sale of the land but does not know if the government is interested in the deal or not.

SUPPORT ADMINISTRATION.

Buffalo, Sept .25.—Pledging themselves to support the administration in its efforts to conserve the nation's food supply, 1,000 delegates attending the 21st annual meeting of the Grain Dealers' National association here, adopted a strong resolution at their opening session today.

A TRUCE! A TRUCE!

Chicago, Sept. 25.—A temporary truce between Mayor William Hale Thompson and forces that have been seeking to prosecute him because of his alleged protection of the peace council agitators has been declared. Leaders of the force opposed to Thompson have declared that they will abandon their fight on the mayor for the present and devote their energies to assisting States Attorney Hoyne in his efforts to eliminate alleged graft from the city administration.

STATE BANS WHISKEY.

Columbus, Sept. 25.—Whisky for even medicinal purposes, which has been costing the state about $1,000 a year, will be barred hereafter from all state institutions by the state board of administration. Dr. A. G. Hyde, superintendent of the state hospital at Cleveland, found that whisky was unnecessary after several months' experiment with the 1,700 patients there.

Read administrator's sale on page 4 of this issue.

NATURE'S OWN REMEDY.

Hyomei Relieves Catarrh Without Dangerous Drugging of the Stomach.

Not until Hyomei was discovered has it been possible to truthfully say that a remedy for catarrh was known.

This remedy is breathed through the Hyomei inhaler for a few minutes four times a day, and during that time every particle of air taken into the air passages and lungs is impregnated with the germ-killing and health giving Hyomei.

Stomach drugging often causes disordered digestion and brings on some other disease and never makes a permanent cure for catarrh. Hyomei not only kills the germs in the throat and nose but penetrates to the minutest air cells in the lungs and enters the blood with the oxygen, killing the germs in the blood. It frees the mucous membrane from the poisonous microbes and gives freedom from catarrhal troubles.

A complete outfit costs but little and includes an inhaler, dropper, and sufficient Hyomei for several weeks' treatment.

Remember, that if Hyomei does not help you, Bolger & French and Floding's Pharmacy will refund your money.

WANTED—CLEAN COTTON RAGS AT NEWS OFFICE. 178tf

THE HEMMETER STORE

SEPTEMBER SALE!

Fresh, new, desirable, dependable merchandise. These goods have come from leading mills, manufacturers, wholesalers and importers who found advantages of our ready cash too tempting to resist.

Strong Salem Eleven Assured

Fast Professional Team Will Put City on Football Map in Earnest; Organization Completed Monday Evening; Many Local and Out-of-town Stars in Line for Places; First Practice Thursday Eve, Initial Game Sunday; Opener Here October 7.

George Baillie, Captain.
Donald O'Connor, Coach.
Wallace Trotter, Manager of games
Harry O. Mellinger, Treasurer.
Ed. Maley, Team manager.
E. J. Kesselmire, Assistant manager.

Above are the names of the men who will guide the destinies of the fast professional football team being organized to represent Salem on the gridiron this fall. With the exception of Captain Baillie and Coach O'Connor, chosen at a previous meeting, these officers were appointed at a meeting of football fans held Monday evening at the Chamber of Commerce rooms. At this session of football candidates and backers assurance was given that this city will be represented this fall by one of the fastest teams in its history.

The Salem eleven will probably play its first home game on Sunday, October 7. Negotiations are now being conducted by Manager Trotter to bring the Cleveland Strollers, the Sixth City's only professional eleven this fall, here for the opener. Efforts will be made to sell 1,500 tickets for this game, and the proceeds from it will place the team on a financial basis and secure several high-priced players whose services are not available at present.

Efforts will be made by the team to schedule an out-of-town game for this coming Sunday, possibly with the fast Youngstown Patricians, and if not with them, either Niles, Struthers or an eleven in some nearby city.

The personnel of the Salem team this year will include some of the best football material in this section of the state. In addition to a host of local stars who have signified their intention of trying out for the first team, lines have already been secured on professional players in several of the cities nearby. It is understood that efforts will be made to secure the services of several of the Youngstown Patricians' second-string men, which team is said to have a surplus of fine material this year. A Warren star named Shaw, reputed to be a clever backfield man, is under consideration by the locals and may be in the lineup before the season is far under way. Ruple, Canton, who played some last season with the Canton Bulldogs, professional champions of the United States, was present at the meeting Monday night and signified his intention of playing end for the Quakers. Two Alliance stars have also been secured to play with the local aggregation. They are Willem and Miller, who will probably hold down the wing positions for Salem this year. Stoffer, Washingtonville veteran, who played at guard with the local machine last season, will be back for a try at his old position this fall. Captain Baillie as yet has no rivals for the center position, but three likely lads are out for the pivot position. They are "Joe" Kelley, ex-captain and quarterback of the high school eleven; "Pete" Windle, with a like record, and Carl Hoff, another local boy. "Patsy" Dean and Harry Smith will be out for a position in the backfield, with Leroy Jewell and Coach O'Connor for line duty as tackles. Kennedy will also be back this year for guard duty, while "Fat" Galbreath will be out for a similar position.

"Sam" Williman, Alliance high coach and former Ohio state star, who has signed to play with the Canton Pro's this season, has assured Manager Maley that, if possible, he will be seen in action in one or two games with the local team.

"Eric" Munsell and several other veterans of many seasons are expected to be back in moleskins before the season is far advanced, although at present they have expressed themselves as not being "eligible for service" this season.

Coach O'Connor has called the first practice for Thursday night of this week, and if a game is scheduled for next Sunday, practice will also be held Friday night. The place will be announced later.

The old Globe rink will be secured for practice this fall and will enable the team to execute forward-pass plays without being bothered by shadows, which make this play almost impossible under the old arc light at Reilley field.

Thursday will be the first try-out for candidates, and all prospectives are urged to come out. Men who make good Thursday will be given a chance to display their talent in the game Sunday.

Manager Maley stated at the meeting Monday evening that he had an offer from the Toledo Maroons to play in that city but it was not definitely decided whether the Salem team would accept the offer. It is probable that the team will make the trip, however.

Communications have also been received from a score of other fast teams in this section of the state and it will be an easy job to book a schedule of classy attractions.

The new playing field at the old Salem Driving park will be put in shape in time for the opening game and, it is understood, will make one of the best football fields in the state outside of a few college fields. The big grandstand will be directly in front of the field and will permit a good view of every play from its shelter.

* * *

HIGH SQUAD CANNOT PRACTICE, MAY CANCEL RAYEN; PLAGUE CAUSE

Salem High school football team will be handicapped for almost a month, Coach Dickerson stated Monday, when an order went out prohibiting the team from practicing any more this week. This order is the result of the quarantine placed over activities in this city on account of the infantile paralysis situation.

In all probability the red and black will not open up the season next Saturday with Rayen High of Youngstown. Hopes were maintained by the local gridders that they would be permitted to make the trip to Youngstown and meet Rayen on South High field. It is doubtful, now, however, whether the high school team will be allowed to leave the city.

* * *

PRINCETON'S GRIDIRON STAR TO DIRECT CAMP ATHLETICS

FRANK GLICK

Frank Glick, Princeton's football captain in 1915, arriving at Camp Upton, Yaphank, L. I., where he will organize and direct camp athletics. He will be civilian aide to Major-General J. Franklin Bell.

It would not be at all surprising if one of the biggest football games in the country took place at Camp Upton's parade ground, which, by the way, doesn't even exist yet.

The principal idea in Mr. Glick's coming is to give the men reserve power, to train them all to be 100 per cent efficient physically and mentally and to keep them in the pink of condition. Relief from the monotony of drills is also aimed at.

A lively athletic season is expected at this camp as come of the country's best-known former stars are officers at the cantonment. Among those attached to this command are Captain Eddie Grant, old Harvard and Giant baseball player, and Captain Bob Storer, once of Harvard.

* * *

Salem Accorded First Place on Rayen Schedule

Manager Jack Hellawell announced the following schedule for Rayen football eleven this fall:

Sept. 29—At Salem.
Oct. 6—East Palestine.
Oct. 13.—At Akron Central.
Oct. 20.—Alliance.
Oct. 27—At Barberton.
Nov. 3—Canton.
Nov. 10.—At Massillon.
Nov. 17—Ashtabula.
Nov. 29—South High.

Spare Sugar and Help Out French

Washington, Sept. 25—The American people are called upon today to make the first real sacrifice of the war to aid the French. Unless Americans cut down their consumption of sugar by one-third, the French people will be entirely without the product for the next two months.

As sugar is considered vital to the physical welfare of the fighting men, the action of the American people may have a vital effect upon the war.

The plea for cutting down the sugar consumption was issued by Herbert C. Hoover, food administrator. His statement, addressed to the people of the United States, is as follows:

"We have received a request from the French government that we allow them to export from the United States 100,000 tons of sugar during the next month and probably more at a later period.

"Our own situation is that we have just sufficient sugar to maintain our normal consumption until the first of January, when the West Indian crop becomes available to all.

"Our consumption is at the rate of 90 pounds a person a year—a little under four ounces a day per person.

"The French people are on a ration of sugar equal to 21 pounds per annum to a person—or at the rate of less than a single ounce a day a person—a little more than the weight of a silver dollar each day.

"The English and Italian rations also are not over an ounce a day.

"The French people will be entirely without sugar for more than two months if we refuse to part with enough from our stocks to keep them supplied with even this small allowance, as it is not available from any other quarter.

"Sugar even to a greater amount than the French ration is a human necessity. If our people will reduce by one-third their purchases and consumption of candy and of sugar for other uses than preserving fruit, which we do not wish to interfere with, we can save the rench situation.

"In the interest of the French people, and of the loyalty we owe to them to divide our food in the maintenance of our common cause, I ask the American people to do this. It is unthinkable that we refuse their request."

Alliance—Thirty per cent increase in enrollment of freshmen at Mount Union college over that of last year is reported. This increase about makes up for the falling off in the number of upper classmen due to their entrance into the world war.

$100 REWARD, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

STEEL PRICES ARE CUT IN HALF BY WILSON'S ORDER

Washington, Sept. 25—Prices which the United States, its allies and the public are to pay for steel products essential to the war program, after existing contracts expire, were approved late Monday by President Wilson, following announcement of an agreement entered into on a voluntary basis by the steel interests and the War Industries Board. Broadly put, prices were cut in half, as compared with current quotations.

The maximum figure allowed was $65 a net ton of 2,000 pounds for steel plates, which are demanded in great quantities for shipbuilding. Steel bars will sell at $58 a ton and steel shapes at $60. These prices, according to an official statement, represent savings of from 47 to 70 per cent over the highest prices recently paid on private contracts. The new scale is effective at once and will be subject to revision January 1.

Raw materials, such as iron ore, coke and pig iron, necessary to the steel industry, also were placed under control, and, except in the case of iron ore, prices were lowered with a sweeping hand. It is expected that the steel industry will co-operate with the government in making these prices effective where the industry itself does not control output.

Boy Scouts Are Asked by Wilson To Aid New Loan

New York, Sept. 2[illegible]—An appeal from President Wilson was received here by the Boy Scouts of America, asking their assistance in the coming second Liberty loan campaign, in which he says the issue must be subscribed for in such a way as to show the firm resolution of our people in the present war.

"The gratifying achievement of Boy Scouts with the aid of their scout masters and leaders throughout the United States is securing over $23,000,000 subscriptions to the first Liberty loan will serve I hope to make their work even more effective in the new effort," the president wrote. "My earnest wish is that every scout leader give every Boy Scout an opportunity to take a definite part in this practical method of giving expressions to his second obligations of service to our country."

It was announced at the organization's headquarters that the scouts will take no part in the canvass until the last week, when they will make a house-to-house effort, in the field already gone over by others, to round up those who failed to yield to previous appeals.

The scouts will be used also to distribute Liberty loan posters throughout the country and for one of the few times in the history of the government in the treasury department seal will be used on other than money when it is placed on the bronze war emblems to be awarded scouts who sell bonds to 10 persons in any of the campaigns.

HAVE DARK HAIR AND LOOK YOUNG

Nobody can Tell when you Darken Gray, Faded Hair with Sage Tea.

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

Ida M. Taylor, administratrix of the estate of Sarah Richmond, deceased, plaintiff, vs. Ida M. Taylor, et al, defendants.

Annie M. Kauffman, who resides at Mount Carroll, Carroll county, Illinois; May Richmond, a minor 16 years of age; Alta Richmond, a minor 14 years of age, and Clara Richmond, a minor 12 years of age, who reside with their mother, Ida Richmond at Roosevelt, Minnesota, will take notice that Ida M. Taylor, administratrix of the estate of Sarah J. Richmond, deceased, on the 10th day of September, 1917, filed her petition in the Probate Court of Columbiana county, alleging that the personal estate of said decedent is insufficient to pay her debts and the charges of administering her estate; that she died seized in fee simple of the following described real estate:

Situated in the county of Columbiana, state of Ohio, and in the township of Perry, bounded and described as follows: Being lots Nos. 31, 32, 64 and 65 in McKinley Heights allotment, as recorded in Columbiana County Records of Maps, book 6, page 165. Except that said lots are conveyed subject to a coal lease on the No. 3 vein of coal underlying the same.

The prayer of the petition is that said property be sold to pay the debts and charges aforesaid.

Annie M. Kauffman, May Richmond, a minor 16 years of age; Alta Richmond, a minor 14 years of age, and Clara Richmond, a minor 12 years of age, are hereby notified that they have been made parties defendant to said petition and that they are required to answer the same on or before the 8th day of November, 1917.

IDA M. TAYLOR,
Administratrix of the estate of Sarah J. Richmond.
By Boone & Campbell, her attorneys.

BLACK SILK
STOVE POLISH

"A SHINE IN EVERY DROP"

Black Silk Stove Polish is *different*. It does not dry out; can be used to the last drop; liquid and paste one quality; absolutely no waste; no dust or dirt. You get your money's worth.

Black Silk Stove Polish

is not only most economical, but it gives a brilliant, silky lustre that cannot be obtained with any other polish. Black Silk Stove Polish does not rub off—it lasts four times as long as ordinary polish—so it saves you time, work and money.

Don't forget—when you want stove polish, be sure to ask for Black Silk. If it isn't the best stove polish you ever used—your dealer will refund your money.

Black Silk Stove Polish Works, Sterling, Illinois.

Use Black Silk Air Drying Iron Enamel on grates, registers, stove-pipes, and automobile tire rims. Prevents rusting. Try it.

Use Black Silk Metal Polish for silverware, nickel, tinware or brass. It works quickly, easily and leaves a brilliant surface. It has no equal for use on automobiles.

SHEET MILL MAN SAYS WRITE ME FOR THE FACTS

John Flaherty Tells How Nerv-Worth "Put Me on My Feet."

The high value of this recently given signed endorsement strikingly appears in its closing words:

"ANYONE WANTING ME TO VERIFY THIS STATEMENT, I WILL CHEERFULLY DO IT BY LETTER OR IN PERSON."

Now read the entire remarkable array of facts:

"I want to tell everybody about the good Nerv-Worth did me. I had a severe attack of the grippe, which left me in a nervous and weakened condition. I was so nervous I could not sleep and get any rest. I was unable to work and was in bad shape. All run down. Had no appetite. Stomach in bad condition. I purchased a bottle of Nerv-Worth and before I had taken one-half of it, the nervousness left me and I could sleep soundly and get rest. I regained my vigor and today am in excellent health. I am employed in the Whitaker-Glessner Co.'s sheet mill and never miss a day now. Nerv-Worth certainly put me on my feet. Anyone wanting me to verify this statement, I will cheerfully do it by letter or in person.

"John FLAHERTY,
"146 14th St., Wheeling, W. Va."

The J. Lease Drug Co. sells Nerv-Worth in Salem. Your dollar back if this family tonic does not help YOU.

Married Men May Enlist.

Washington, Sept. 25—Married men may enlist in the ordnance corps of the army in case no condition of dependency exists that may later result in application for discharge, the war department announced. Skilled mechanics, wheelwrights and technical men, married or unmarried, are needed for the machine shop units for service abroad and Secretary Baker has authorized the acceptance of married men who are not disqualified by having dependent wives or children.

Safe Remedy for Children.

Chas. Baker, Brownsville, Tex., writes: "For years I have used Foley's Honey and Tar and found it especially efficient for bad coughs of my children. I recommend it to my friends as a safe remedy for children as it contains no opiates. It is certain to bring quick and lasting relief." Stops coughs. Bolger & French.

Sebring—Total enrollment of the schools here is 800 in round numbers, an increase of 60 over last year. Seventy-two are in the high school, the freshman class being the largest in the history of the school. Grade rooms are full, and overflowing in some instances.

Never Bothered Since.

After suffering with terrible pains in the back for eight years, and after having tried doctors and medicines, Alvis Souers, Ade, Ind., writes: "Foley Kidney Pills were recommended to me and the first bottle removed the pain. After taking three bottles the bloating was all gone and has never bothered me since." Bolger & French.

Sebring—All the concrete bases for the "white way" lamps will be in place soon, ready for the laying of the cable and erection of lamp posts, as work is being pushed rapidly. It is believed the lights will be in use in 30 days.

New Roads for Camp.

Camp Sherman, Sept. 25.—About 15 miles of new waterbound gravel roads, criss-crossing Camp Sherman, will be built at a cost of $225,000 if plans of the constructing quartermaster, submitted for approval of Secretary of War Baker, are accepted. Improved roads are necessary to camp efficiency and transportation of supplies.

The estimated length of the roads is 78,050 feet, and the cost $15,000 a mile.

East Liverpool—While inspecting a revolver which had been presented to his father Mortimer Calcott, 16, eldest son of Mr. and Mrs. Reid Calcott, shot and fatally wounded himself at his home, dying an hour later.

Lessons For Food Savers

MEAT SHORTAGE TO LAST SO RALLY GARDENERS AND PLAN FOR NEXT YEAR'S PLANTING

Washington, Sept. 24.—The meat shortage that is world wide will continue for several years according to statement made to congress of live-stock men by Secretary Houston and Food Administrator Hoover. More than 125 cattle raisers met here to confer on what should be done and they were told that the condition is not a temporary one nor is it confined to the United States.

"With this condition before us and made plain by such high authorities," said Charles Lathrop Pack, president of the National Emergency Food Garden Commission," let every city gardener in the country look to next year.

"You have one good lesson, now profit by that experience and see what the soil needs for best results next year. The commission will answer your questions in this regard for you know the garden will work all winter.

"With this statement as to meat conditions every gardener who enrolled as a soldier of the soil to produce food f. o. b. the kitchen door has a duty to perform—a patriotic duty that he must not shirk. Indications are that we will have two million men under arms. Thousands upon thousands of men have been cheered on their way to training camps. But they now become nonproducers and must be fed.

"The women have broken all records in the matter of canning and now it is up to the gardeners to come right back with another record breaking year so that the canning and drying may be kept up. The commission now has ready for free distribution storage and pickling manuals. All you have to do it write for them. War garden exhibitions throughout the land are entering our contest for the $5,000 in prizes and national certificates of merit. There is room for a few more but application must be made quickly.

Making Vinegar in the Home.

Every housewife may make the home supply of vinegar out of surplus fruits, fruit juices, fruit peelings, fermenting canned fruits, fermenting jelly, fermenting cooked fruits, says today's bulletin of the National Emergency Food Garden commisison, co-operating with this paper to conserve the nation's food supply. In making of vinegar even some vegetable peelings may be used, such as beets with more or less natural sweetness, molasses and anything with enough sugar to start alcoholic fermentation. This statement is conditional upon the observing of certain precautions in the alcoholic and acetic acid fermentations necessary to vinegar production.

Press or drain the juice from whatever kind of cooked or raw fruit, peelings, cores, fermenting fruits or whatever is to be used. Place it in a glass or glazed vessel—a glass jar is good—cover the open top with cheesecloth to keep out insects and dust and let in the air, and set away in a temperature of from 70 to 80 degrees F. The alcoholic fermentation will begin at once. This changes the sugar to alcohol and may last a week or 10 days. While this fermentation is going on, air bubbles will rise to the top. Fresh juice may be added while this fermentation is taking place, but after it ceases and the acetic acid fermentation begins, the liquid must not be disturbed. The least bit of sourness indicates that acetic acid fermentation has begun and a thin film then forms on the surface of the liquid. This film must not be broken if best results are desired. It would be of advantage to pour in a little pure vinegar to hasten acetic acid fermentation.

The so-called "vinegar-mother" should not be used because it is really a diseased condition of the acetic acid ferment. In four or five weeks the home-made vinegar should be ready to use.

Any waste product with a little sugar in it may be made into vinegar in this way.

Hardest Worked Need Help First.

Through all the years the kidneys are at work filtering out impurities that poison the blood if permitted to remain. Is it any wonder that they are overworked and in need of help? Foley Kidney Pills are tonic and strengthening in action. Get rid of backache, rheumatic pains, stiff joints, sore muscles. Bolger & French.

WINDOW "WAR GARDEN" GROWS SALAD FOR ONE

Speaking of Salem "war gardens," perhaps the most unique, and certainly the most diminutive is that cultivated in a bay window of a Broadway home. Yet its capacity has been sufficient to supply one meal of lettuce a day for one person all summer, and the garden promises to continue its production of salad material until cold weather. It is tended by Mrs. Frank Mercer.

ANOTHER DESCRIPTION OF TRIP TO ALABAMA

Still another account of the journey of Company D from this city to Camp Sheridan at Montgomery, Ala., is contained in a letter just received by home folks from John Walton, of Winona, one of the "boys." He says in part, under date of September 19:

"Co. D, 135th Machine Gun Batallion.

"Camp Sheridan, Ala., Sept. 19.

"After having spent over a day and a half in camp I like it fine. Of course we do not get as much to eat yet as we did in Salem, but hope to get more soon. We were transferred to 135th machine gun battalion yesterday. Will get our new uniforms tomorrow, because we have different ones in the 135th.

"We expect to begin drills tomorrow morning and the sweat will sure come out. I do not like the nights as well as the days for it gets pretty chilly towards morning. From present indications there will be about 36,000 men in Camp Sheridan when all are here.

"I will tell you of the trip south. Starting from Salem, 6 a. m. Sunday morning we went through Alliance, Canton, changed railroads at Orrville and started south. Columbus was our next stop, then Cincinnati, from there to Louisville, Ky., where we changed to Pullman sleepers. Going through Louisville Sunday night, our next stop was at Nashville, Tenn., getting there at 2 p. m., where we got off the train and marched for about 15 minutes. We then marched back to the train and started for Montgomery, Ala getting there about 6 a. m. Tuesday morning. We then made up our beds while we were in the railroad yards in the city. We were stopped there about one hour, coming then to camp where we detrained. Our train was composed of 17 cars; of course there were a few baggage cars in the 17.

"I do not know just how many companies were on the train, but think there were about five, each having a baggage car. From Louisville, Ky., to Nashville, Tenn., we were pulled by two big locomotives and we certainly traveled some. All the rest of the way we only had one engine pulling us.

"We saw some very nice scenery on the way. The bridge over the Ohio river just before getting into Louisville, Ky., is 2½ miles long. I just happened to be awake when we crossed it.

"Nearly all the men were asleep when we pulled into Louisville, and they had to be awakened to change to the Pullman sleepers. Having ridden all day and nearly all night in the same cars we started in we were all very tired. We traveled 1000 miles while on the trip and believe me the men were all sober when they detrained at Camp Sheridan and also very happy."

EIGHT-CENT BREAD.

New York, Sept. 25.—Bakers of New York announced today that the price of an 14-ounce loaf of bread would be eight cents if the price of flour is fixed at $11 a barrel.

Will be Repaid for Their Work.

"Women everywhere suffer from kidney trouble—backache, rheumatic pains, swollen and tender muscles, stiff joints. Mrs. C. J. Ellis, 505 8th avenue, Sioux Falls, S. D., writes: "I feel sure if anyone bothered as I was will give Foley Kidney Pills a fair trial they will be repaid for their work." Bolger & French.

I. W. W. Had Plot to Lay Nation Waste

Enid, Okla., Sept. 25.—A revolution of 2,000,000 malcontents, nation-wide in scope, backed by the I. W. W. and 48 affiliated organizations, including the Working Class Union, in which it was planned to apply the torch to small cities, shoot officers of the government and demoralize communication, was planned for July 27 last, according to the testimony Monday, of Will Hoover, state witness in the trial of eleven alleged anti-draft agitators from central Oklahoma.

The Industrial Workers of the Work were to launch the uprising, Hoover said "Rube" Munson, alleged state organized of the Working Class Union, told a meeting of the Friendship local in an open corn field near Sasakawa.

At a pre-arranged time the W. C. U. was to capture small towns, take charge of banks, burn bridges and cut telegraph wires while the I. W. W. cared for the larger cities in a like manner.

President Wilson and Gov. Williams of Oklahoma, Hoover and Munson declared, would have such a large force of soldiers for personal protection and on the Mexican border that none would be available to send against he rebels.

Rifles Ready When Needed.

Members, he said, were told by H. C. Spence, accused state secretary of the Working Class Union, that two car loads of rifles would be available when needed and that the Working Class Union had as much right to conscript recruits for a revolution as the government had to draft men for the trenches in France. At this meeting, early in July, appropriations were made for the purchase of 100 pounds of dynamite, Hoover declared.

OHIO BALANCE BIG

Columbus, Sept. 25.—The forthcoming annual report of State Treasurer Chester E. Bryan will show Ohio has more money now that ever before.

The total balance on hand June 30, 1917, the close of the fiscal year, was $12,965,929.83, as compared with $10,798,795.05 for the year before. The magnitude of Ohio's financial operations is made manifest by its receipts, which amounted to $38,476,849.74 the past year.

Salem Business College

"Prevention"

We have a complete line of Atomizers and Antiseptic Sprays such as Boro-Glycol, Listerine, Glyco Thymoline, A. D. S. Antiseptic, etc.

Remember the old saying—an ounce of prevention better than a pound of cure—besides the above remedies will be needed this winter to prevent sore throat, etc.

Prices or Quality—Which?

Again We Choose Quality

After having operated for twenty-five and a half years, establishing the reputation of making to order the best Suits and Overcoats at $16, $20, $25 in America, we will be obliged in order to maintain our quality to advance our prices to $18.00, $22.50, $27.50.

In the year that has since passed, wool, cotton, linen, silk and all other materials entering into men's clothes have advanced so abnormally that these supplies cost fully double what they did two years ago.

We are therefore smack up against the proposition of either reducing our standard of quality or increasing the price.

After very careful calculation we find that by exercising the highest degree of ingenuity and efficiency in production, we will be able to maintain that standard by advancing our price only $2.00 on $16.00 suits and $2.50 on $20.00 and $25.00 suits.

We have put this price so low that it will enable us to continue to make high class garments to order, cheaper than you can buy them ready-made.

In order to give our customers due notice of the advance and that they may get the benefit of materials we have on hand we will continue operating at our present price of $16.00, $20.00, $25.00 up to and including Saturday, September 29, 1917.

On and after September 29, 1917, all suits and overcoats will be $18.00, $22.50 and $27.50.
